

# Vocational Education and Training

Creating skilled students through quality vocational education and training

## Nambour State College vision

To support students to excel in their chosen pathway, nurturing independence, compassion, innovation and global citizenship

Vocational Education and Training (VET) is a learning pathway available to students 15 years of age and above in Senior Secondary. VET provides students with the opportunity to engage in education and training which may lead to employment and/or further study. It is a great way to have a taster of a particular industry.

At Nambour State College we are extremely proud of the variety of options that we have available for students to participate in. We offer both internal and external vocational courses that are relevant and rewarding – Agriculture, Visual Art, Music, Business, Dance, Retail Cosmetics, Hair & Beauty, Health, Hospitality, Sports & Recreation and a variety of Trades.

## Why study this way?

Students will be able to reach their full potential through positive education studies, activities and learning experiences both at school and in the workplace and will be able to study a number of different courses, that are on a direct pathway or study a mixture of courses from the general syllabuses, applied syllabuses or VET certificates.

Successful completion of VET provides students with nationally recognised qualifications that deliver the skills and knowledge required for specific industries and occupations. All of our qualifications are nationally recognised and comply with the Australian Qualifications Framework. Students starting nationally recognised industry qualifications whilst at school are more successfully able to transition to pathways such as apprenticeships and traineeships, full time employment or further training / study, not excluding university pathways once school is completed.

## How will it work?

VET qualifications can be undertaken in Years 10, 11 and 12 and will provide credit towards students Queensland Certificate of Education (QCE). Benefits of participating in VET include (but are not limited to):

- *obtaining practical experience from work*
- *gaining familiarity on how workplaces operate*
- *developing employability skills*
- *developing and improving interpersonal skills*
- *allowing students to explore the potential career path they would like to pursue.*

## VETiS funding

VETiS qualifications are funded by the VET investment budget. Students undertaking VETiS, can complete one employment stream qualification at the Certificate I or II level. (One bite of the cherry).

The only school subjects that utilises VETiS funding are Certificate I in Construction, Certificate II Engineering pathways, Certificate II in Sampling and Measurement and Certificate II in Engineering Pathways (Build a Drone).

While students are unable to complete the above courses and another VETiS funded course for free (eg. Certificate II Plumbing at TAFE as it is also course funded by VETiS), they are still able to participate and will have to pay the full fee for the course.

## Year 10 courses

### Internal VET courses – school subjects #

RTO: Nambour State College 30084

Course code and course	Fee	Requirements	QCE
AHC10216 Certificate I in Agrifood Operations	Nil	Protective clothing, foot protection (leather or vinyl uppers), hair restrained.	2
CUA10320 Certificate I in Visual Arts	\$70	Protective clothing, foot protection (leather or vinyl uppers), hair restrained.	3

# School based apprenticeship and traineeship

## What it is?

School based apprenticeship and traineeships (SAT) are designed for Year 11 and 12 students. They allow students to gain real-world experience (and get paid) whilst working towards a nationally recognised qualification and completing your high school studies.

Students in Year 10 can apply for Semester 2. The workplace skills and confidence students gain during their SAT provide a solid foundation for any career pathway. SATs are funded under User Choice Funding and can be completed at the same time as a Vocational Education and Training in Schools (VETiS funded course).

## Benefits:

- ✓ A head start to your career
- ✓ An opportunity to earn and learn
- ✓ More flexibility and variety
- ✓ Try a career path while at school
- ✓ Be a step ahead of the competition when applying for jobs
- ✓ Drop a school subject (not Maths or English) to complete a SAT and 5–8 Queensland Certificate of Education (QCE) points
- ✓ Points towards your individual Australian Tertiary Admissions Rank (ATAR) score (Certificate III or above only)

## How to apply:

1. Make an appointment with our Traineeship and Job Placement Officer by email at [apett59@eq.edu.au](mailto:apett59@eq.edu.au)
2. Create a resume / update if required.
3. Research the apprenticeship or traineeship in the specific industry you are interested in.
4. Apply for positions that are available or advertised within the school or start looking for an Employer.
5. Complete a training contract once you have been accepted as an Apprentice or Trainee.
6. Start your SAT.
