Nambour State College
Device Hire Program P-6

Charter &
Application Forms

Foreword

The Nambour State College Tech2Learn program is to provide a technology option that is affordable for families who are unable to purchase/supply their own device.

Portable electronic devices such as laptops and iPads are widely used within the school to deliver and enhance student learning. Our curriculum is ever evolving, with Digital literacy being one of the 21st Century skills. Nambour State College offers various ways for students to engage digitally within our college, Tech2Learn programmes encompass both BYO and our hire programs across both Junior and Senior Campuses.

Junior Campus Program

Nambour State College Junior Campus Tech2Learn iPad program is a forward-thinking initiative designed to equip every student with an iPad, ensuring they have access to the latest digital learning tools. This program offers a wide range of benefits that significantly enhance the educational experience and foster creative learning opportunities.

Students have the option to either purchase their own BYO iPad or hire one from the college for a yearly fee.

iPad classes will use their iPads in a way that considers learning requirements, health and safety each day. They will be used as one of many tools for learning. Students will still require school books and pencils according to their booklist. Learning is personalised for each student across a balanced curriculum.

The use of an iPad has not replaced the fundamental early year's experiences that children require to develop fine, gross motor and social skills. With our balanced curriculum, iPads provide an important tool for teachers to provide 21st century learning experiences, giving added voice and choice for a learner-centred teaching approach.

Junior Campus Tech2Learn Hire

The Nambour State College Junior Campus Tech2Learn Hire Program equips students with a school owned iPad for use at school only. The device is securely stored within our classrooms for use during the day. **A student's BYO iPad which meets our school specifications are supported through our Tech2Learn BYO program.**

The purpose of this program is to provide you with a cost effective, value for money alternative to purchasing an iPad for your student to use within class through reduced prices gained from the school's bulk purchasing processes. The cost to participate in the Tech2Learn Junior Campus Hire Program is \$180 per year. To purchase the items individually would cost over \$700

What is included in the Hire fee:

The items included in the Tech2Learn Junior Campus Hire Program are as follows

- 🌞 Apple iPad 9th Gen or equivalent
- 🌞 Secure classroom storage
- 🌞 Shockproof case
- 🌞 Technical administration time
- 🌞 Apps required for curriculum

Participation Fee for 2025

- 🌞 Yearly payment of \$180.
- 🌞 The iPad will be collected at the end of the school year.
- 🌞 The device will have all personal data removed, and the iPad refreshed ready for the following year
- 🌞 The device will be assessed and any damage will be invoiced to student
